

# Environmental Policy Statement

Loram UK recognises the importance of environmental sustainability and the crucial role our performance has to play in achieving this. We take our legal and moral obligations extremely seriously and will continually strive to minimise the impact of our activities on the environment, wherever we operate.

As Managing Director of Loram UK, together with my management team I am committed to the protection of the environment through the implementation of this policy. We will be:

- Maintaining independent certification of our environmental management system to ISO14001:2015
- Adhering to our compliance obligations including relevant environment legislation, regulations and guidance from railway industry standards
- Being aware of Loram UK's interested parties and to manage their needs and expectations
- Integrating environmental management principles into critical business processes and decision making practices
- Identifying, investigating and managing the risk and opportunities relevant within Loram UK's business.
- Where possible purchasing products and services that have the least adverse impact on the environment throughout their life cycle
- Minimising natural resource consumption in buildings, vehicles and processes
- Continually improving the effectiveness of the environmental management system, our processes, products and services to enhance our environmental performance and reduce the impact of our operations.
- Continually improving in respect of air, water, noise, and light pollution from our premises and reduction of any impact from our operations on the environment and local community
- Minimising our waste and reusing or recycling wherever possible
- Promoting a culture of environmental sustainability throughout all Loram UK's activities by communicating, training and rewarding best practice
- Establishing environmental objectives and targets (Key Performance Indicators) for our most significant environmental aspects
- Ensuring our partners, supply chain and contractors comply with our environmental management system
- Clearly communicating to all stakeholders this policy, our strategy and business objectives
- Analysing our performance and compliance to our environmental management system, investigating issues and implementing robust corrective/preventive actions
- Periodically reviewing this policy, our vision and performance to take account of changes in the organisation, compliance obligations and other factors
- Taking all reasonable precautions to prevent pollution from our business operations

Employees have a duty to co-operate in the operation of this policy by:

- Adhering to the environmental management system processes and procedures
- Minimising natural resource consumption through preventing unnecessary waste
- Reporting any issues which have the potential to adversely impact on the environment
- Considering the needs and expectations of local neighbouring businesses and community
- Co-operating with investigations to understand the root and underlying causes of incidents
- Undergoing and engaging with any environmental training required
- Supporting Loram UK environmental initiatives

I am personally committed to this statement of our environmental policy and endorse its content to everybody involved with Loram UK.

Richard Kelly
